REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest the combination of the claimed method for packaging a web as amended and supported by the reasons provided in the remarks of the amendment filed on 12/21/2004.

As to claim 12, the prior art of record fails to disclose the claimed method of packaging a web comprising the steps of directing a slit web to a single nip formed by first and second rotating reels; providing simultaneous fold to two or more narrower adjacent webs of the slit web; and joining the ends of the two or more narrower webs together, so that the narrower adjacent webs form a continuous web whose length corresponds to a combined length of the two or more narrower adjacent webs, in the claim environment (Figs. 1 and 4).

As to claim 27, the prior art of record fails to disclose the claimed method of packaging a web comprising the steps of directing a slit web to a single nip formed by first and second rotating reels; providing simultaneous folding of two or more narrower adjacent webs of the slit web; joining the ends of the two or more narrower webs together so that the narrower adjacent webs form a continuous web by joining the first ends of two or more stacks in pairs, in the claimed environment (Figs. 1 and 6).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
